

# ALLIED TOOLING LTD

## THE FUTURE'S BRIGHT...

October 2006

fu·ture (fyōō'chər)

n.

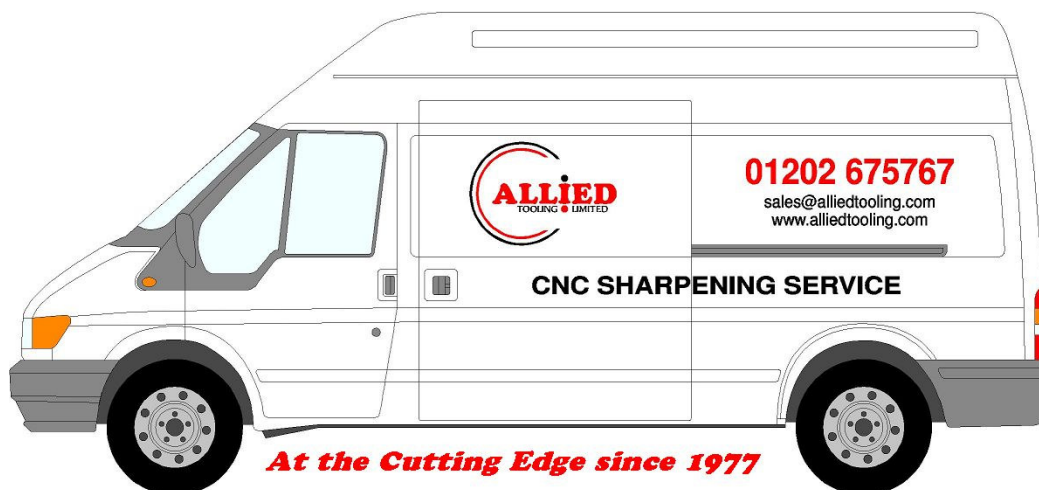

1. The indefinite time yet to come:
2. A prospective or expected condition, especially one considered with regard to growth, advancement, or development:

We have continued our philosophy of expansion by increasing our business in the Midlands and Northern England. Allied Tooling Ltd have now successfully taken over the servicing arm of Gomex Tools, integrating 300 new accounts to our existing group customer base. This additional business will be managed from our depot in Brierley Hill.

We have inherited both Gomex Driver/Salesmen: Andy Smith and Peter Underwood who will continue to offer a weekly collection and delivery service in the area. Carl Westwood has taken the new role of Regional Manager but will also continue to offer his expertise for the Metalworking accounts. Not forgetting our Woodworking customers, who can enjoy the wealth of knowledge and experience of our area representative Paul Beese.

Blade servicing is carried out on our Vollmer CNC robotic service centres, allowing us to provide the highest quality of service and blade performance. We currently run three Vollmer centres at Allied (Poole) and in the new year will be commissioning a **FOURTH**, proving our long term commitment to the industry.

As a company, we can now boast eight collection/delivery vehicles covering most of England and Wales backed up by regional depots in Plymouth, Caerphilly, Birmingham, and Northampton.

**At the Cutting Edge since 1977**
